1. The Amendment filed on June 2, 2006 has been entered.
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
3. Authorization for this examiner's amendment was given in a telephone interview with Ms. Beverly M. Bunting on July 26, 2006.

This application is in condition for allowance except for the presence of claims 26-28 directed to species non-elected without traverse. Accordingly, claims 26-28 have been cancelled as authorized by Applicant. See MPEP 821.02.

4. The following is an examiner's statement of reasons for allowance: the primary reason for allowance, *inter alia*, is the new limitation "a pedal support arm (18d) extending outwardly from a lower edge of said mounting face (18a) *that are integrally formed as one member*" (referential numeral and emphasis added) in claims 1 and 15. See Applicant's Figs. 1 and 4.

The closest prior art Roe (US Patent No. 3,151,499) does not teach or suggest to form the pedal support arm 28 (Fig. 3) and the lower edge (at A in Fig. 3 of the Attachment in the Office action on March 2, 2006) of the mounting face 14 as one piece. If one makes Roe's pedal support arm 28 and Roe's lower edge of the mounting face 14 as one piece, one would render Roe's pedal assembly to be inoperative for its intended design since Roe's pedal support arm 28 would not be able to pivot about the pivot A or 30. See other reasons set forth in Applicant's arguments on pages 14-19 of the above amendment.

Art Unit: 3682

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. The drawings were received on June 2, 2006. These drawings are accepted by the Examiner.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Bialk et al. (pivots 40a, 40b, 45, etc.), Duveau (pivots 17, 28, etc.), Li et al. (pivot 16), and Sakamoto et al. (pivot 24a, 25, and 27).
